### *Planned Gifts*

Planned gifts, including bequests and endowment contributions, have provided the foundation for our greatest periods of growth, as well as financial stability to protect agency services during tough economic times. These types of gifts are especially valuable to Family & Children's Services because they also offer opportunities for new and innovative programs, including prevention and early intervention efforts to protect children and preserve families.

The concept of planned gifts is simple, although there are many variations to suit donor preferences. These gifts can benefit the giver, as well as the designated charity. In exchange for donated assets, whether cash, stocks, bonds or property, the donor may receive a tax benefit, as well as an income for a specified number of years.

Please consider including Family & Children's Services in your estate planning. Your gift will provide needed funding for services to benefit clients well into the future and will stand as a clear declaration of your commitment and values.
