William H. Webb, ACSW, Executive Director
Family & Children Services
16 Jefferson Avenue
Elizabeth, NJ 07201

Dear Bill:

On behalf of NJCAP and its network, we would like to thank Family & Children Services for acting as the host agency of the CAP project in Union County this past year. As such, your agency has provided support and local representation for the Union County CAP project. Part of this representation, besides being one of support, should be one of sharing with the public that your agency provides CAP to your County.

The way in which we ask that this be done is by featuring the **Union CAP Project** in your agency brochures and marketing literature and on your website. To date, we have not seen anything on your website about the Union CAP Project. We are requesting that CAP be included and provide the schools and community the contact information to obtain these prevention services.

This may easily be done by featuring a brief summary statement about the local CAP project similar to the narrative on the following NJCAP link <http://www.njcap.org/overview.wbp> and linking it to the New Jersey CAP website at www.njcap.org. (Attached is a copy of this overview and a CAP brochure.) Included in the description should be contact information on your local CAP Project.

We appreciate your serious consideration of featuring CAP on your website. By doing this, you will share with everyone who visits your website, a resource that your agency indirectly provides which empowers children to be safe from abuse and bullying and ultimately, strengthens the families and schools in your community.

Most Sincerely,

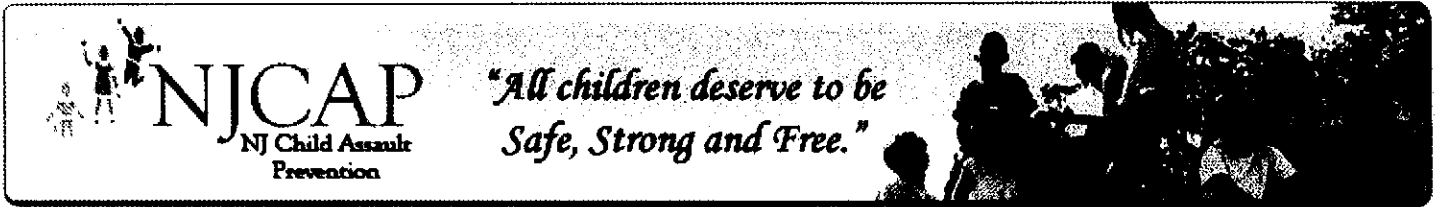

Cheryl Mojta
Director of Operations
NJCAP/ ICAP

Jeannette Collins
Director of Programs and Curricula
NJCAP/ ICAP

cc: Millie Castillo, Union County Coordinator

Overview

Child Assault Prevention Programs

Program Descriptions

The CAP (Child Assault Prevention) project is a comprehensive primary prevention program. It provides three major programs to the schools and communities of the state of New Jersey. They are:

The Child Assault Prevention Program

No More Bullies, No More Victims

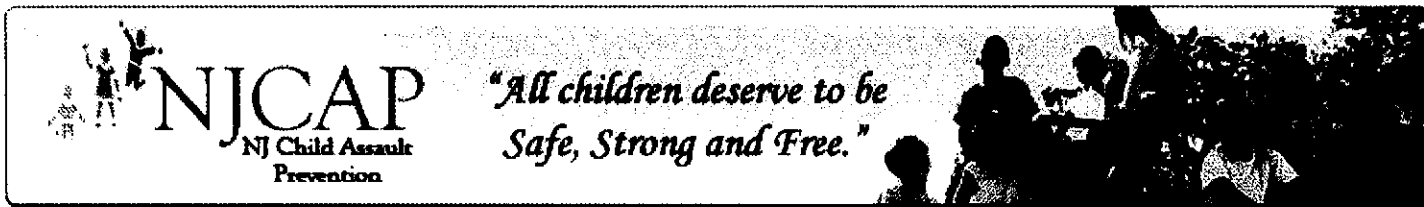

Violence Prevention through Conflict Resolution

All CAP programs utilize a three-pronged approach to community prevention education: training of staff, parents and children. CAP strategies include self assertion, peer support, effective communication and reporting skills. CAP programs are presented with a view of assault as a violation of basic human rights. All people deserve to be **Safe, Strong and Free.**

Adult workshops precede the children's programming. They include staff in-service trainings and parent workshops. They cover the prevention and empowerment strategies given in the children's workshops and offer suggestions for the most effective ways to support those strategies at home, school and in the community.

Contact Us

NJ CAP has an office in every county and an additional one in the city of Newark. The host agencies and county coordinators are responsible to implement the program within the school and community setting. The county coordinator is responsible to ensure quality control programming, market the program and act as a prevention specialist to the county.
